## The Benefits of Travel Adaptors

Embarking on a journey to a new country is an exciting adventure filled with new sights, sounds, and experiences. But in our hyper-connected world, one small detail can bring the entire trip to a screeching halt: the dreaded incompatible power outlet.

You've packed your smartphone, your camera, and your laptop, only to discover that your charger's plug simply won't fit into the wall socket. This is where the travel adapter becomes your essential travel companion.

More than just a simple piece of plastic, a **travel adapter is the bridge that connects your devices to a foreign power source, ensuring you can stay charged, connected, and ready to capture every moment.** This guide will walk you through everything you need to know about travel adapters, from understanding the different types of plugs around the world to choosing the perfect one to keep your travels running smoothly.

# On-the-Go Flash Drives

Data transfer between platforms without the use of data cables.

This Flash drives are a type of USB flash drive that can be directly connected to a smartphone or tablet, without the need for a computer as an intermediary.

One of the most significant developments in the field of data storage and transfer has been the emergence of OTG (On-The-Go) flash drives.

# WRITING INSTRUMENTS

## Enduring Power of the Written Word

The tactile pleasure of a fine writing instrument holds a unique and enduring appeal. A quality pen isn't just a tool; it's a statement of professionalism, a symbol of thought and creativity, and a tangible connection in a virtual age. This makes writing instruments an exceptionally effective choice for promotional gifts.

# Message from a Bottle.

PET plastic bottles are one of the most routinely present objects in our everyday lives: on our desks, in our bags or at table. Although we all use them, few really know what happens to them after they are dumped in the recycling bin. Their story does not end the first time they are used but, thanks to the properties of the material they are made of (polyethylene terephthalate), the moment they turn to waste another chapter in their lives begins.

## Kind

Kind is made not only of recycled materials but of recyclable ones too.

Kind is made of certified R-PET. This material is obtained by gathering and recycling PET, the most commonly used polyester in the production of soft-drink bottles.

R-PET is made of recycled plastic and contributes to reducing the environmental footprint. Studies show that, apart from combating the accumulation of plastic waste, recycling 1kg of R-PET is equivalent to reducing CO2 emissions by 3kg.

A new model of pen that takes care of the environment and inspires a sustainable story. Kind is made of certified R-PET. This material is obtained by gathering and recycling PET, the most commonly used polyester in the production of soft drink bottles. R-PET is made of recycled plastic and contributes to reducing the environmental footprint. Our commitment leaves its mark.

# Kind

Created to write change

Graceful lines, an iconic profile and plenty of room for customisation. Kind is our new recyclable and refillable model in R-PET. Delivering a message with a strong visual impact and low environmental impact.

## Maxema Antibacterial: design and safety

Take care of yourself even when you write: the plastic we use on our Antibacterial collection prevents bacteria from settling on pen surfaces and passing from one hand to the other.

### The plastic used is antibacterial

Certified antimicrobial additive releases silver ions and prevents bacteria from settling on the surfaces of the pen.

### Bacteria: up to 99,99% less

Laboratory tests have shown that up to 99,99% of the bacteria on the pen are destroyed.

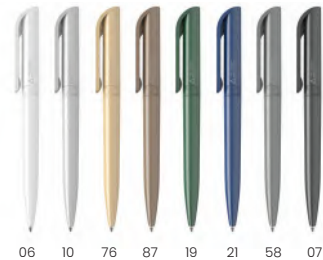

### We Care about your health

Some bacteria can cause disease and infections: make your life still safer, even when you write.

## Take care of yourself when you write.

In the office, at the bar, in public places: has it ever crossed your mind how many microbes pass from hand to hand through the most everyday actions? Our antibacterial pens, combined with good hygiene habits, guarantee an additional level of protection.

## RECYCLED PLASTIC PENS

# Being Eco Friendly is a Way of Life.

For our recycled plastic pens we use materials of European origin that are 100% derived from postconsumer products.

When appropriately treated, they guarantee high quality plastics, certified and compliant with RoHS and REACH regulations. The production process consists of collecting WEEE material (waste electrical and electronic equipment), carefully separating the plastic from metal, glass and ceramic residues, and turning it into granulate material. This is how the Recycled line is made.

**maxema**<sup>®</sup>

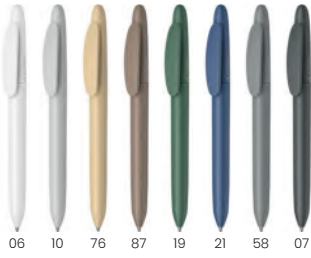

Recycled Collection

Change is a choice and it depends on each of us.

To change means to choose responsible, sustainable consumption that prefers quality to quantity, better still if the raw materials come from recovery chains

## Choose Better. Make it last.

Who said good things don't last? At Maxema, we do everything we can to make our pens live for as long as possible. A Maxema pen loves nature: the longer it lasts, the less it pollutes. And, since one life seemed too short for us, we have created a new line in recycled plastic, beautiful to look at and even more environmentally friendly

# Plastic Pens

## A Timeless Tool for Brand Promotion

In a world saturated with digital marketing and fleeting online ads, the humble promotional pen remains a steadfast and highly effective tool for brand promotion.

Promotional plastic pens, in particular, offer an unbeatable combination of practicality, affordability, and wide-reaching visibility. Far from being a relic of the past, these pens are a tangible representation of a brand, a functional item that users can hold, use, and remember. They serve as a constant, subtle reminder of your company's name, logo, and message, making them an essential component of any successful marketing strategy.

### Where to Distribute Promotional Pens

**Trade Shows and Conferences:** Using pens as a go-to giveaway item to attract visitors.

**Corporate Events and Meetings:** Providing branded pens for attendees to take notes.

**Retail and Point-of-Sale:** Giving pens as a complimentary gift with a purchase.

**Mailers and Direct Marketing Campaigns:** Including a pen in a promotional package for a tangible touchpoint.

**Internal Use:** Providing employees with branded pens to foster a sense of unity and professionalism.

Material : Recycled material  
Category : Writing Instruments  
Printing : [Screen Printing] [UV Printing]

This Drought-resistant tree holds immense cultural, environmental, and economic significance, making it a vital part of the ecosystem in these regions.

## Did you know?

The Ghaf Tree is known for its remarkable ability to thrive in harsh desert conditions with very little water. Its deep roots can reach down to find hidden water sources, allowing it to survive even in the driest of environments. This resilience makes the Ghaf Tree a symbol of strength and perseverance in the face of adversity.

Plant your pencil in 4 easy steps

Instruction

### 1 TOO SHORT TO WRITE

### 2 PLANT

Gently push the Green ca sideways at the bottom, into the soil.

Remove the pencil after 3/4 days to allow th seeds to sprout better.

### 3 ADD WATER, SUN & LOVE

### 4 WATCH IT GROW:

The Ghaf is a drought-tolerant tree, which can remain green even in harsh desert environments. The Ghaf is the national tree of the UAE and can live up to 120 years!

Crafted with recycled materials and embedded with Ghaf tree seeds, this pencil embodies sustainability from its core.

## Beyond the Box - The Art and Science of Pen Packaging

In the world of fine writing instruments, the pen itself is only half of the story. The packaging, often considered an afterthought, is a critical component that elevates the product from a simple tool to a cherished gift or a luxurious collectible. Pen packaging is more than just a protective case; it is the first physical interaction a customer has with the brand, a visual and tactile prelude to the elegance within.

A well-designed package can build anticipation, convey a sense of quality and craftsmanship, and enhance the overall perceived value of the pen. It serves as a silent salesperson, telling the story of the brand, the materials, and the artistry of the writing instrument it holds.

### The Purpose of Pen Packaging

**Protection:** Shielding the pen from damage during shipping, handling, and storage.

**Presentation:** Creating a premium unboxing experience that builds anticipation and excitement.

**Branding:** Reinforcing brand identity through colors, logos, and design aesthetics.

**Information:** Providing details about the pen, such as model number, materials, and country of origin.

**Gifting:** Making the pen an ideal gift by presenting it in an elegant and secure manner.

**Display:** Serving as a display case for retail environments to attract customers.

### A Finishing Touch that Defines the Product

Reaffirming that pen packaging is an integral part of the product itself, influencing consumer perception, brand identity, and the overall success of the pen in the marketplace.

A traditional form of weaving and embroidery practiced by Bedouin people, across the Arabian Peninsula, including countries like Kuwait, Saudi Arabia, and the United Arab Emirates.

Sadu patterns are characterized by their intricate and often bold geometric designs. You'll see a lot of triangles, squares, diamonds, and linear patterns, arranged in rhythmic and symmetrical repetitions.

# P R O M O T I O N A L B A G S

**A promotional bag, at its core,  
is a portable marketing tool.**

These bags are distributed to a target audience with the aim of increasing brand visibility, recall, and ultimately, sales or engagement. Unlike fleeting advertisements, a promotional bag offers utility, ensuring repeated exposure to the brand whenever and wherever it's used.

# ECO JUCO

ECO-FRIENDLY JUTE & COTTON

"Every single piece of plastic you choose not to use is a victory for our planet. Ecojuco makes that victory effortless, durable, and delightfully stylish."

Where sustainability meets style. In a world increasingly burdened by plastic waste, we offer a simple yet powerful solution: beautiful, durable products crafted from natural jute fiber. We are more than just a company; we are a commitment to a greener planet, providing you with high-quality bags that are 100% biodegradable, eco-friendly, and support fair-trade practices. Choosing Ecojuco is choosing a better future, one stylish bag at a time.

**Bespoke Designs.  
Crafted with Care.**

**Carry Consciously.  
Live Lightly.**

**Exceptional Durability:** Jute is one of the strongest natural fibers, making our bags tough enough to handle everything from your weekly grocery haul and farmers market finds to books and beach gear.

**Planet-Friendly:** Every Ecojuco bag is made from rapidly renewable jute, consuming minimal resources and leaving zero plastic footprint. When its long life is finally over, it will naturally decompose, returning to the earth without harm.

**Comfort & Style:** Featuring soft, reinforced handles and a clean, minimalist design, the tote is comfortable to carry and pairs perfectly with any aesthetic. It's the essential carry-all for the conscious consumer.

# GENERAL GIFTS

## The Power of Giving

Proving to be consistently effective in marketing and brand building. These common and traditional promotional gifts are the workhorses of the industry, cherished for their utility, broad appeal, and enduring power to build brand recognition.

# Keychains

This innovative combination brings together the best of two distinct materials: the natural warmth, sustainability, and unique grain patterns of bamboo, with the robust durability, sleek finish, and versatile design capabilities of metal.

The metal keychain with bamboo is a testament to thoughtful design. It represents a harmonious blend of nature and industry, creating an accessory that is both practical for daily use and visually appealing, making it a popular choice for corporate gifts, promotional items, or a stylish personal touch.

**Trade shows, giveaways, customer appreciation,  
We have the perfect promotional gift for  
every single marketing goal.**

**Promotional products offer undeniable value that other marketing methods simply can't match:**

**High ROI:** Studies consistently show that promotional products have a lower cost-per-impression than most forms of advertising.

**Brand Recall:** A useful gift keeps your brand visible in front of the recipient for months, or even years.

**Tangible Connection:** They create a physical, positive link between your brand and the customer. It's a gift, not just an ad.

**Lead Generation:** Branded giveaways are excellent traffic drivers for trade show booths and events.

**Employee Morale:** Use them as internal gifts to celebrate milestones, onboard new hires, and foster team unity.

## The Ultimate in Comfort and Performance

### Polo-Shirts ( Unique Blend )

The Key Feature of the fabric is that it is constructed in a way where the inside of the fabric worn next to the skin is predominantly cotton and the outside is polyester. this therefore combines the comfort of cotton with the hardwearing properties of polyester.

A special technology, fabric which protects the skin from harmful UV rays. UV protection avoids sunburn and protects your skin for long period, which keeps you healthy and fresh. Sweat absorbent feature keeps the body dry and comfortable; it pulls the moisture away from the skin to the surface of the fabric.

**Recycled plastic bottles made into finely weaved yarn for lanyards**

RPET stands for recycled polyethylene terephthalate, or recycled PET. PET is a strong, durable and recyclable material that is used for soda bottles, water bottles and food jars, while RPET can be made into such products as blankets, insulation, car parts, shoes and more. RPET is produced by collecting, sorting and recycling PET, then refining the material into flakes that can be turned into new products. Using RPET as an alternative to PVC is a huge step forward on the path toward a greener, safer and cleaner future.
